

Sustainable Greater New Bedford Project #1: Advanced Marine Technologies' Capabilities

Fishing Grounds (1) Fish Species/Type (2) Local Processors (3) Waste Transport (4) AMT Facility (5)

1. Regulatory Impact: Fishing limited by int'l. agreement, requires sufficient grounds.

2. Regulatory Impact: Takings limited by fed. regulations, Enzymatic process applicable for all.

3. Regulatory Impact: City wastewater pretreat. limits (\$) encourage solids separation.

4. Regulatory Impact: 'Organic' certification requires specialty hauler and equipment

5. Regulatory Impact: Evaluation of 1-4 impacts shows that this technically skilled company can meet all regulatory impacts.
